Mr. T. Nelson, Sys. Cons.
Box 1546
Poughkeepsie, New York 12603

Dear Mr. Nelson:

Thanks very much for your inquiry concerning our Clearprint Papers.

We are attaching hereto an Outline of -

CLEARPRINT CHARACTERISTICS

which we believe you will find extremely interesting.

For your testing, we are enclosing a sample sheet of our No. 1000H and No. 1020-10 Papers.

Please test these sheets and convince yourself of the many inherent advantages of these sheets.

Our papers are available at Defiance, 600 Palisade Avenue, Union City, New Jersey.

Thanks very much for your interest. If we can be of any further assistance, please get in touch with us.

Very truly yours,

CLEARPRINT PAPER COMPANY, INC.

OUTLINE OF CLEARPRINT CHARACTERISTICS

CLEARPRINT - Tracing Papers have served the Engineering and Architectural Profession since 1933 and the oldest tracings still serve our many friends today - as they have served for over 31 years. Clearprint Papers are watermarked for your protection.

UNIFORMITY - The Unchanging Character of CLEARPRINT Papers includes - an ideal Ink and Pencil Surface - Permanent Transparency - Outstanding Erasing as well as Handling - Reproduction and Lasting Qualities. CLEARPRINT does not discolor with age.

ERASING QUALITIES - OF INK AND PENCIL LINES - Drawn and redrawn - in the same areas - prove CLEARPRINT'S unequalled erasing strength - Please hold our erased samples to the light - and be convinced.

PRINTING - HANDLING - AND LASTING QUALITIES - The files of our many friends prove that CLEARPRINT originals are not subject to cracks - creases - or tearing - and do not require edging tape. They yield copies of fine definition.

CLEARPRINT'S VALUE TO YOU - The small amount supposedly saved by buying a cheaper paper - is surely of minor significance - when compared to the value of the drawings involved.

STORAGE OF TRACINGS - CLEARPRINT Originals - should be filed separately and not with - moist - ammonia developed - or similar processes.
